Notice of Privacy Practices for Protected Health Information (PHI)

HAMILTON VEIN CENTER

THIS NOTICE DESCRIBES HOW MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN OBTAIN ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY!

Effective date: September 23, 2013

The Practice of Hamilton Vein Center is required by applicable federal and state laws to maintain the privacy of your health information. Protected health information (PHI) is the information we create and maintain in the course of providing our services to you. Such information may include documentation of your symptoms, examination and test results, diagnoses and treatment protocols. It also may include billing documents for those services. We are permitted by federal privacy law (the Health Insurance Portability & Accountability Act of 1996 (HIPAA)), to use and disclose your PHI, without your written authorization, for purposes of treatment, payment, and health care operations.

Examples of Using Your Health Information for Treatment Purposes:

- Our nurse obtains treatment information about you and records it in your medical record.
- During the course of your treatment, the physician determines he will need to consult with a specialist. He will share the information with the specialist and obtain his/her input.
- We may contact you by phone, at your home, if we need to speak with you about a medical condition or to remind you of medical appointments.

Example of Using Your Health Information for Payment Purposes:

- We submit requests for payment to your health insurance company. We will respond to health insurance company requests for information about the medical care we provided to you.

Example of Using Your Information for Health Care Operations:

- We may use or disclose your PHI in order to conduct certain business and operational activities, such as quality assessments, employee reviews, or student training. We may share information about you with our Business Associates, third parties who perform these functions on our behalf, as necessary to obtain their services. Your health information is also subject to electronic disclosure for treatment, payment and health care operations.

Your Health Information Rights

The health and billing records we maintain are the physical property of the Practice. The information in them, however, belongs to you. You have a right to:

- Obtain a paper copy of our current Notice of Privacy Practices for PHI ("the Notice");
- Receive Notification of a breach of your unsecured PHI (i.e., PHI that is not electronically encrypted);
- Request restrictions on certain uses and disclosures of your health information. We are not required to grant most requests, but we will comply with any request with which we agree. We will, however, agree to your request to refrain from sending your PHI to your health plan for payment or operations purposes if at the time an item or service is provided to you, you pay in full and out-of-pocket and the disclosure is not otherwise required by law;
- Request inspection and copying the information about you that we maintain in the Practice's designated record set. You may exercise this right by delivering your request, in writing, to our Practice;
- Appeal a denial of access to your PHI, except in certain circumstances;
- Request that your health care record be amended to correct incomplete or incorrect information by delivering a written request to our Practice. We may deny your request if you ask us to amend information that (a) was not created by us (unless the person or entity that created the information is no longer available to make the amendment), (b) is not part of the health information kept by the Practice, (c) is not part of the information that you would be permitted to inspect and copy, or (d) is accurate and complete. If your request is denied, you will be informed of the reason for the denial and will have an opportunity to submit a statement of disagreement to be placed in your record;
- Request that communication of your health information be made by alternative means or at alternative locations by delivering a written request to our Practice;
- To opt-out of any future fundraising communications if we engage in fundraising activities and contact you to raise funds for our Practice;
- Obtain a list of instances in which we have shared your health information with outside parties, as required by the HIPAA Rules;
- Revoke any of your prior authorizations to use or disclose information by delivering a written revocation to our Practice (except to the extent action has already been taken based on a prior authorization).

Our Responsibilities

The Practice is required to:

- Maintain the privacy of your health information as required by law;
- Notify you of a breach of your unsecured PHI;
- Provide you with a notice ('Notice') describing our duties and privacy practices with respect to the information we collect and maintain about you and abide by the terms of the Notice;
- Notify you if we cannot accommodate a requested restriction or request; and,

- Accommodate your reasonable requests regarding methods for communicating with you about your health information and comply with your written request to refrain from disclosing your PHI to your health plan if you pay for an item or service we have provided in full and out-of-pocket at the time of service.

We reserve the right to amend, change, or eliminate provisions of our privacy practices and to enact new provisions regarding the PHI we maintain about you. If our information practices change, we will amend our Notice. You are entitled to receive a copy of the revised Notice upon request by phone, by visiting our website or Practice.

As Required by Law

- We may disclose your PHI as required by law, or to appropriate public authorities as allowed by law to report abuse or neglect.

Employers

- We may release health information about you to your employer if we provide health care services to you at the request of your employer, and the health care services are provided either to conduct an evaluation relating to medical surveillance of the workplace or to evaluate whether you have a work-related illness or injury. In such circumstances, we will give you written notice of the release of information to your employer. Any other disclosures to your employer will be made only if you execute a specific authorization for the release of information to your employer.

Other uses and disclosures of your PHI not described in this Notice will only be made with your authorization, unless otherwise permitted or required by law. Most uses and disclosure of psychotherapy notes, uses and disclosures of your PHI for marketing purposes, and disclosures of your PHI that constitute a sale of PHI will require your authorization.
